## Research Experience

**National Bureau of Economic Research**                                            New York, NY
Research Assistant, Economics of Health Program                                     October 2022 - Present

- Working with Mike Grossman and Henry Saffer on a project that examines the impact of e-cigarette internet sales bans and e-cigarette flavor bans on tobacco use among youth and adults

**Stone Center on Socio-Economic Inequality**                                       New York, NY
Research Assistant                                                                  January 2022 - June 2023

- Worked with Ignacio Flores on a paper investigating the distributional effects of French agricultural land on productivity through compiling and analyzing cadastral and remote sensing data

**The Brookings Institution**                                                       Washington, DC
Research Analyst, Global Economy and Development Program                            August 2019 - June 2021

- Coauthored a working paper with Raj M. Desai and Homi Kharas, providing empirical evidence on the correlates of subnational development using data from subnational areas across 169 countries
- Coauthored a working paper with Dany Bahar, investigating the drivers of patent quality in Japan using a patent-level dataset
- Compiled, managed, and analyzed a large dataset using public spending and needs estimates of 7 sectors across 190 countries for a working paper on financing the Sustainable Development Goals (SDGs)

**Yale University**                                                                 New Haven, CT
Research Assistant, Department of Economics                                         Spring 2019

- Assisted Yusuke Narita through providing substantive and editorial support to projects on the design of randomized controlled trials, evidence-based policymaking, wealth distribution, and electoral reform

## Teaching Experience

**Brooklyn College**                                                                Brooklyn, NY
Graduate Assistant Lecturer                                                         August 2022 - May 2023

- Elementary Microeconomics (Spring 2023)
- Introduction to Economic and Business Statistics (Fall 2022)
